Participants; Lena Malmström, Berit Svanqvist, Karolina Reinhold, Grete Patil, Annika Ljungström, Stein Roar Slotterøy, Matti Tapaninen, Eva Lotta Backman, Frida Bjorg Edwardsdottir.

1. WHAT IS NEEDED IN ORDER TO MAKE THIS THEME/FOCUS AREA INTERESTING FOR DECISION-MAKERS?

Three most important "bullet points"

- 1 More lobby
 - Timing
 -
- 2 Experience the areas by them self
 - The policymaker in Oslo often lives in the vest part of Oslo, they should live one month in east of Oslo
 -
- 3 Button-up principles
- 4 Evidence based knowledge
 - Reliability indicators
 - What works?
 -
- 5 Good examples and stories
 - Local and national level
 - Byrokrater important
 -
- 6 More cooperation between the different actors in public knowledge
 - Researchers and Municipalities and others
 - When this works there are a lot of positive reactions.
 - Corporation, documentation and evaluation
 -
- 7 Economical evidences
 - Cost benefit of preventive work
 -
- 8 Producing health in the forests and parks
 -

2. WHICH PERSPECTIVE, STRATEGIES AND TOOLS DO WE NEED?

Three most important "bullet points"

- 1 Easy and understandable message, a slogan
 - BANG!

Like; Healthy park healthy people

- 2 Health and environment message together
 - Rapport from Dalarna (Johan Hallberg? Lisa had a meeting with him the 12 of may!)
 -
- 3 Holistic perspectives
- 4 Communication
 - More professional?
- 5 The Marmot report SES
 - Most important public health questions
 - Exchange evidences
 - Action plans and Economy
 - Clearer goals - new thoughts
 - Bigger visions
 - Conference in Arnheim
 -

3. HOW CAN WE REINFORCE AND SUPPORT EACH OTHERS ACROSS DIFFERENT PROFESSIONS IN ORDER TO INCREASE THE FOCUS ON NATURE AND HEALTH WITHIN THIS FOCUS AREA OUTDOOR EDUCATION?

Three most important "bullet points"

- 1 Network
- 2 Good examples
- 3 Cross sectional
 - Not cross sectional work just for a hostage

How can planners / landscape architects better use nature and health as an argument for conservation of green space? (Please list 1-7 suggestions)

- 1 Research
- 2 Education
- 3 Evidence based knowledge in a simple way
- 4 Use exiting action plans
- 5 Don't give up
- 6 Legalizations are important
 - Pressure from top and from the bottom
 - Down to the local level
